

WHAT TOOLS & PRODUCTS DO I NEED?

WE HAVE DONE THE WORK FOR YOU

Makeup enthusiasts collect hundreds of tools and products, however, you do not necessarily need millions of tools to get the job done.

We have created checklists with kit-ready alternatives you can use to achieve the same results before you invest in the expensive things. You can purchase these products individually, or in kits from www.huxleyonline.com

If you only have a small budget to spend, no need to stress! Get creative with our *'That'll Do'* Hero Brushes, Power Tools, and Base Products. Where there is a will, there is a way.

HERO BRUSHES

✓	KIT-READY	THAT'LL DO
	ANGLE BRUSH	<p>GET CREATIVE, THINK OUTSIDE THE BOX!</p> <p>Depending on the purpose for the brush, this tool might be a difficult one to replace. With that said, you could get away with a narrow, flat rounded brush.</p> <p>Tip: To create a sharp edge you could use a tissue or tape.</p>
	FLUFFY BRUSH	<p>ANY EYESHADOW BRUSH</p> <p>A fluffy brush is a makeup artist's best friend for blending. But if you do not have one, you can just your other brushes to blend.</p> <p>Tip: We suggest to try using a brush with no product on it to blend.</p>
	TAPERED POWDER BRUSH	<p>TISSUE FOR FALL OUT</p> <p>From a complexion perspective, creating a look is going to be difficult without any powder brush. This guide is however, all about eyes. Typically we would use a powder brush to dust away fall out from eyeshadow, but you can just hold a tissue below!</p>
	MINI FAN BRUSH	<p>SPOOLIE OR ALTERNATIVE BRUSH</p> <p>You should be really careful to not get any fall-out on your lashes, especially if they are extensions. If you do not have a Mini Fan Brush and cannot apply mascara, you could just use another brush or a spoolie to dust away the fall-out shadow.</p>
	TAPERED FLAT EYE/LIP BRUSH	<p>REPURPOSE AN OLD EYESHADOW BRUSH</p> <p>If you have an old eyeshadow brush which is not too flat or sharp follow these steps: 1. Wash it, 2. Use petroleum gel or even hair wax and coat the brush fibres, and 3. Pinch the end together and you should be able to create a sharpened tool for cutting the crease.</p>
	DENSE FLAT EYESHADOW BRUSH	<p>A FINGER</p> <p>You can absolutely apply eyeshadow with a finger. One of our favourite MUAs Pat McGrath is often referenced for using her hands as an applicator.</p>
	DENSE BULLET BRUSH	<p>SMUDGER</p> <p>Dense bullet eye brushes are best used to map out and blend creamier textured products. Some eye pencils have a small smudging silicon tip, but if you do not have one of these applicators, you can cut up a piece of dense sponge and use that!</p>
	CONCEALER BRUSH	<p>SMALL FOUNDATION BRUSH OR A FINGER</p> <p>Ideally you will have one of these in your kit. In fact if you have ample eyeshadow brushes, one of these or your finger would also suffice.</p>

POWER TOOLS

✓	KIT-READY	THAT'LL DO
	SPATULA	THE END OF A MAKEUP BRUSH This will work if you are decanting things onto the back of your hand, although please consider that hygiene is essential, so beforehand make sure you wash your hands thoroughly or wear gloves. A BLUNT KNIFE This option will work but you might find it a little cumbersome and difficult to decant without digging out too much product.
	PALETTE	A TILE OR A PLATE Pretty much does the same job as a mixing palette. However, stainless steel palettes are easier to clean. Avoid using something with a porous surface to save yourself the cleanup in the long-run.
	LASH CURLERS	MASCARA Often a good mascara will help curl a lash. Hot tip: While the hair is wet with the product, it becomes more malleable and can be set into a curled up position by pushing the lashes up with your finger.
	SPOOLIES	OH NO! Unless you are applying makeup on yourself and using your own products, you cannot apply mascara hygienically to others. Spoolies are little disposable tools that are essential for professional MUAs.
	SMOOSH BEAUTY SPONGE	THE PERFECT BLEND Nothing compares to a HUXLEY Smoosh makeup applicator and blender. It's biodegradable, super soft, and super smooshy.

FUN FACT!

BASE PRODUCTS

✓	KIT-READY	THAT'LL DO
	FOUNDATION	OH NO! You will find it hard to substitute this one... Good news however, some products marketed as tinted creams or concealer are the constancy and colour of foundation products. They are very interchangeable.
	CONCEALER	FOUNDATION Foundation in different colours can substitute concealer!
	MAKEUP BLEND	OIL OR EMOLLIENTS Makeup blend is a special silicon-base mixing medium which is used to turn creams and pigments into a liquids. You can experiment with oils and emollients, however, the results will vary!
	PREP, PRIME & SET	ASK OUR TEAM! You do not need a whole pharmacy of products to prep, prime and set your makeup. These products come at many price points. Ask our friendly team which products we recommend for your budget.
	EYESHADOW	COSMETIC PENCILS OR LIP COLOURS If you have pencils and lip colours, you can apply these to your eyes. There are many products with interchangeable uses just make sure they are safe to use around the eyes!
	LOOSE PIGMENT	ANY EYESHADOW Loose pigments are great to create high intensity looks. Some pressed shadows can be just as pigmented and maybe even easier to use.
	GLITTER	CRUSHED DIAMONDS Who even needs jewellery! Obviously joking. Although we do sell a loose pigment called Diamond Dust... it is amazing.
	CLEAR LIPGLOSS	ANY GLOSS If it ain't clear, don't fear. Unless it is dirty... Then trash that gloss! We use gloss to create unmistakable glassy textures over the lids. You could use other eye-safe emollients but it is difficult to find ones that stay shiny and are not too thick.
	LIQUID LINER	PENCILS, CREAMS AND EVEN SKIN SAFE BODY PAINT The primary purpose for liquid liner is wings. But there are heaps of ways to snatch a winged shape using other products, as we will show you further into this guide.
	AQUACOLORS	SKIN SAFE BODY PAINTS Aquacolor is a special water-activated pigment which is self setting. You could use regular skin-safe body paints however, the end results will vary. Visit our website for more products and details.
	SUPRACOLORS	PIGMENT AND A MIXING MEDIUM Supracolor are multipurpose cream colours which blend beautifully. You could trial mixing eyeshadow pigments with a mixing medium to create a similar effect. Again the result will vary!
	MASCARA	HMM I WOULD RATHER YOU DIDN'T... There is no perfect substitute for black mascara. However, Aquacolors are buildable and great for creating colourful lash looks!
